Tao in the City – Frankfurt 2010 with Grand Master Mantak Chia Instructor Certification Training

Dear Participants in the Universal Healing Tao Instructor Training!
It has been a long way with a lot of challenges and experiences from my first introduction to the Tao as a little boy until now. One of the greatest challenges was when I started teaching in America from sessions on a one to one basis to groups of twenty, fifty or one hundred people. This was quite an experience for me.

In the last twenty years now I was faced with a new challenge by creating the Universal Healing Tao System with the help and support of my family and many Universal Healing Tao Instructors around the world. This process also included the creation of the Tao Garden with the Universal Healing Tao Center available to anyone who is seeking to create higher life quality by being in touch with the Source.

Presently, we are establishing UHT Continental Network Centers on most continents. We are now ready to share with you the most exciting phase of development; our Vision-Mission 2012 Process, of which you will become a part of and be introduced to by attending the Instructor Training.

Becoming an Instructor is not just learning a skill, increasing your competence or knowing the techniques or the teachings (although these are definitely important); it is mainly about refining our character by cultivating and developing the virtues and spiritual values that we esteem - love, kindness, gentleness, courage, fairness, understanding, openness, and a sense of community among all of us.

I look forward sharing with you my experiences and wish you all the best for your instructor training.

With compassion and gratitude

*Grand Master
Mantak Chia*
